✨ Grade 1 Maths — Money Concepts ✨

Name: Demo Grade 1 **Date:** 26/11/2026

Let's think it through together!

1. A bouncy ball costs 55c. You have 5c and 10c and 20c. How many more cents do you need?

2. A yo-yo costs 15c. You have 20c and 10c and 5c. Do you have enough money to buy the yo-yo? (yes/no)

3. Freya has 50c and 10c. Ivy has 5c and 20c. Who has more money?

4. You have these coins: 5c, 20c, 10c. How much money is that altogether?

5. You have these coins: 10c, 20c, 50c. How much money is that altogether?

6. You have these coins: 5c, 10c, 50c. How much money is that altogether?

7. A mini kite costs **60**c. You pay with **10**c and **20**c and **50**c. How much change should you get back?

8. Sam has 10c and 5c. Hugo has 50c and 20c. Who has more money?

9. Toby has 10c and 20c. Ruby has 5c and 50c. Who has more money?

10. A toy dinosaur costs **50**c. You have **20**c and **10**c and **5**c. Do you have enough money to buy the toy dinosaur? (yes/no)

You did it — great work!
