✨ Grade 10 English — Grammar ✨

Name: Demo **Date:** 26/11/2026

1. Identify the clause relationship: 'While the audience applauded, the performers took their final bow.'

2. Identify the sentence type: 'Because the company replaced the experiment, the scientist published the software, and the editor replaced the bridge.'

3. Identify the verb tense and aspect: 'The author will have designed the policy.'

4. Identify the sentence type: 'The author analysed the bridge, and the researchers tested the findings.'

5. Identify the sentence type: 'The company approved the budget, and the scientist funded the findings.'

6. Identify the sentence type: 'The author documented the design, so the researchers analysed the proposal.'

7. Identify the clause relationship: 'Though the scientist designed the report, the researchers launched the report.'

8. Identify the sentence type: 'When the government designed the experiment, the researchers tested the findings.'

9. Answer both (separate your two answers with a comma). 1) Identify the expanded noun group: 'the tall, weathered oak tree standing at the edge of the field' 2) Identify the verb tense and aspect: 'She had been studying for three hours when the power went out.'

10. Identify the clause relationship: 'Though the author published the report, the committee designed the software.'
