✨ Grade 3 English — Decoding ✨

Name: Demo Grade 3 **Date:** 26/11/2026

Let's think it through together!

1. Both of these words are made of two smaller words: 'football' and 'bluebird'. Write the two smaller words for each, separated by a space (and your two answers separated by a comma).

2. This word is made of two smaller words: 'skateboard'. Write the two smaller words separated by a space.

3. Both of these words are made of two smaller words: 'sandcastle' and 'butterfly'. Write the two smaller words for each, separated by a space (and your two answers separated by a comma).

4. Both of these words are made of two smaller words: 'sunshine' and 'cupcake'. Write the two smaller words for each, separated by a space (and your two answers separated by a comma).

5. Both of these words are made of two smaller words: 'birthday' and 'toothbrush'. Write the two smaller words for each, separated by a space (and your two answers separated by a comma).

6. Both of these words are made of two smaller words: 'snowman' and 'seahorse'. Write the two smaller words for each, separated by a space (and your two answers separated by a comma).

7. Both of these words are made of two smaller words: 'sunshine' and 'lighthouse'. Write the two smaller words for each, separated by a space (and your two answers separated by a comma).

8. Both of these words are made of two smaller words: 'bluebird' and 'starfish'. Write the two smaller words for each, separated by a space (and your two answers separated by a comma).

9. Both of these words are made of two smaller words: 'basketball' and 'haircut'. Write the two smaller words for each, separated by a space (and your two answers separated by a comma).

10. Both of these words are made of two smaller words: 'grandmother' and 'backpack'. Write the two smaller words for each, separated by a space (and your two answers separated by a comma).

You did it — great work!
