✨ Grade 2 Maths — Problem Solving ✨

Name: Demo Grade 2 **Date:** 26/11/2026

Let's think it through together!

1. You have **2** red apples and **4** green apples. You share all the apples equally into **2** bags. How many apples are in each bag?

2. You have **11** red apples and **1** green apples. You share all the apples equally into **2** bags. How many apples are in each bag?

3. Ava has **32** stickers. Noah has **15** more stickers than Ava. How many stickers do they have altogether?

4. You have **13** red apples and **19** green apples. You share all the apples equally into **4** bags. How many apples are in each bag?

5. You start with **40** marbles. You win **39** more. Then you give **30** to a friend. How many marbles do you have now?

6. There are 8 boxes with 10 pencils in each box. 36 pencils are given away. How many pencils are left?

7. You have 58 red apples and 2 green apples. You share all the apples equally into 4 bags. How many apples are in each bag?

8. There are 6 boxes with 3 pencils in each box. 11 pencils are given away. How many pencils are left?

9. Sam has 35 stickers. Zoe has 2 more stickers than Sam. How many stickers do they have altogether?

10. Mia has 8 stickers. Leo has 6 more stickers than Mia. How many stickers do they have altogether?

You did it — great work!
