✨ Grade 5 Maths — Capacity ✨

Name: Demo Grade 5 **Date:** 26/11/2026

1. How many millilitres is 24 L?

2. A reservoir holds **51** L. A dam holds **104** L. What is their combined capacity, in L?

3. A container holds **1200** mL. Each cup holds **200** mL. How many full cups can be poured from the container?

4. A container holds **1200** mL. Each cup holds **150** mL. How many full cups can be poured from the container?

5. 
A cylinder started with 800 mL of water. Some was poured out, leaving the amount shown by the markings on the cylinder. How much water was poured out, in mL?

6. Tank A holds 38 L, Tank B holds 76 L, and Tank C holds 124 L. Which tank holds the most?

7. 
A cylinder started with 350 mL of water. Some was poured out, leaving the amount shown by the markings on the cylinder. How much water was poured out, in mL?

8. How many millilitres is 27 L?

9. A container holds **1500** mL. Each cup holds **300** mL. How many full cups can be poured from the container?

10. A container holds **2100** mL. Each cup holds **150** mL. How many full cups can be poured from the container?
