# ✨ Grade 6 Maths — Algebraic Expressions ✨

**Name:** Demo Grade 6 **Date:** 26/11/2026

1. Expand: 2(b + 3)

2. Simplify by combining like terms: 8a + 10a

3. Simplify by combining like terms: 6x + 4x

4. Simplify by combining like terms: 4x + 5y + 3x + 4y

5. Simplify by combining like terms: 7x + 9y + 1x + 3y

6. Simplify by combining like terms: 2x + 2y + 2x + 4y

7. If x = 10, what is 7x + 1?

8. Simplify by combining like terms: 5x + 3y + 8x + 3y

9. Simplify by combining like terms: 8x + 3y + 2x + 6y

10. Simplify by combining like terms: 3x + 4y + 4x + 7y
