✨ Grade 7 Maths — Substitution ✨

Name: Demo Grade 7 **Date:** 26/11/2026

1. If x = 10, evaluate 5x + 13.

2. If x = 11, evaluate 6x + 7.

3. Using the formula Perimeter = 2(l + w), find the perimeter when l = 12 and w = 6.

4. If x = 4, evaluate $5x^2 + 5$.

5. If x = 6, evaluate 8x − 9.

6. If x = 10, evaluate 3x − 6.

7. If x = 9, evaluate 5x − 10.

8. If $x = 9$, evaluate $3x^2 + 6$.

9. If $x = 5$, evaluate $3x^2 + 10$.

10. Using the formula Area = $l \times w$, find the area when $l = 5$ and $w = 8$.
