✨ Grade 5 English — Evidence ✨

Name: Demo Grade 5 **Date:** 26/11/2026

1. Answer both (separate your two answers with a comma). 1) Read this passage: "Handwashing reduces illness. A study found that regular handwashing can reduce the spread of respiratory infections by up to 21%." What evidence supports the claim that handwashing reduces illness? 2) Read this passage: "Community gardens reduce food costs for families. A council survey found that households with a plot in a community garden spent 25% less on vegetables each month." What evidence supports the claim that community gardens reduce food costs?

2. Answer both (separate your two answers with a comma). 1) Read this passage: "Recycling saves energy. Research shows that recycling aluminium uses 95% less energy than producing new aluminium from raw materials." What evidence supports the claim that recycling saves energy? 2) Read this passage: "Urban green spaces improve wellbeing. Studies show that people living near parks report 20% higher life satisfaction scores." What evidence supports the claim that urban green spaces improve wellbeing?

3

Answer both (separate your two answers with a comma). 1) Read this passage: "Swimming improves lung capacity. Sports scientists found that regular swimmers had noticeably larger lung capacity than non-swimmers of the same age." What evidence supports the claim that swimming improves lung capacity? 2) Read this passage: "Recycling helps the environment. A recent study found that recycling one tonne of paper saves 17 trees and 26,500 litres of water." What evidence supports the claim that recycling helps the environment?

4

Answer both (separate your two answers with a comma). 1) Read this passage: "Handwashing reduces illness. A study found that regular handwashing can reduce the spread of respiratory infections by up to 21%." What evidence supports the claim that handwashing reduces illness? 2) Read this passage: "Bike lanes make roads safer. City records showed that new protected bike lanes reduced cyclist injuries by nearly 40%." What evidence supports the claim that bike lanes make roads safer?

5

Answer both (separate your two answers with a comma). 1) Read this passage: "Public libraries benefit communities. A report found that every dollar invested in public libraries returns four dollars in community economic value." What evidence supports the claim that public libraries benefit communities? 2) Read this passage: "Reading aloud to children builds vocabulary. Research found that children read to daily knew twice as many words by age five as those who were not." What evidence supports the claim that reading aloud builds vocabulary?

6

Answer both (separate your two answers with a comma). 1) Read this passage: "Coral reefs support marine life. Scientists have documented that a single healthy reef can be home to over 4,000 species of fish." What evidence supports the claim that coral reefs support marine life? 2) Read this passage: "Bees are vital for crop pollination. Farmers reported that orchards near healthy bee colonies produced up to 30% more fruit than orchards without them." What evidence supports the claim that bees are vital for crop pollination?

7

Answer both (separate your two answers with a comma). 1) Read this passage: "Solar panels reduce electricity costs. A survey found that households with solar panels saved an average of $600 per year on power bills." What evidence supports the claim that solar panels reduce electricity costs? 2) Read this passage: "Community gardens reduce food costs for families. A council survey found that households with a plot in a community garden spent 25% less on vegetables each month." What evidence supports the claim that community gardens reduce food costs?

8

Answer both (separate your two answers with a comma). 1) Read this passage: "Swimming improves lung capacity. Sports scientists found that regular swimmers had noticeably larger lung capacity than non-swimmers of the same age." What evidence supports the claim that swimming improves lung capacity? 2) Read this passage: "Volunteering benefits mental health. Surveys found that people who volunteer regularly report feeling happier and less isolated." What evidence supports the claim that volunteering benefits mental health?

9

Answer both (separate your two answers with a comma). 1) Read this passage: "Public libraries benefit communities. A report found that every dollar invested in public libraries returns four dollars in community economic value." What evidence supports the claim that public libraries benefit communities? 2) Read this passage: "Sleep improves memory. Researchers found that students who slept at least eight hours before a test scored higher than students who slept less." What evidence supports the claim that sleep improves memory?

10

Answer both (separate your two answers with a comma). 1) Read this passage: "Bike lanes make roads safer. City records showed that new protected bike lanes reduced cyclist injuries by nearly 40%." What evidence supports the claim that bike lanes make roads safer? 2) Read this passage: "Swimming improves lung capacity. Sports scientists found that regular swimmers had noticeably larger lung capacity than non-swimmers of the same age." What evidence supports the claim that swimming improves lung capacity?
