✨ Grade 5 English — Paragraphs ✨

Name: Demo Grade 5 **Date:** 26/11/2026

1. Answer both (separate your two answers with a comma). 1) Read this paragraph: "Antarctica is one of the most extreme environments on Earth. Temperatures can drop below negative 80 degrees Celsius. Despite this, unique wildlife has adapted to survive there." What is the topic sentence? 2) Read this paragraph: "The stock market can be highly unpredictable. Prices rise and fall based on countless factors. Investors must carefully weigh risk against potential reward." What is the topic sentence?

2. Read this paragraph: "Mangroves are essential coastal ecosystems. Their tangled roots protect shorelines from erosion during storms. They also provide a nursery for young fish and crabs." What is the topic sentence?

3. Answer both (separate your two answers with a comma). 1) Read this paragraph: "Renewable energy is transforming how the world generates power. Solar panels convert sunlight into electricity. Wind turbines capture the power of moving air." What is the topic sentence? 2) Read this paragraph: "Bees are crucial to global food production. They pollinate roughly a third of the crops we eat. Without them, food prices would rise sharply." What is the topic sentence?

4

Answer both (separate your two answers with a comma). 1) Read this paragraph: "Recycling electronics prevents serious environmental harm. Old devices often contain toxic metals that can leak into soil and water if dumped. Proper recycling recovers valuable materials for reuse instead." What is the topic sentence? 2) Read this paragraph: "Ancient Egyptians built massive pyramids using simple tools. They believed pharaohs needed grand tombs for the afterlife. Some pyramids took decades to complete." What is the topic sentence?

5

Answer both (separate your two answers with a comma). 1) Read this paragraph: "The printing of the first dictionaries standardised spelling. Before dictionaries, the same word could be spelled many different ways. Shared spelling rules made writing easier to read across regions." What is the topic sentence? 2) Read this paragraph: "Ancient Egyptians built massive pyramids using simple tools. They believed pharaohs needed grand tombs for the afterlife. Some pyramids took decades to complete." What is the topic sentence?

6

Answer both (separate your two answers with a comma). 1) Read this paragraph: "The invention of vaccines changed the course of human history. Diseases that once killed millions became preventable. Life expectancy increased significantly worldwide." What is the topic sentence? 2) Read this paragraph: "Mangroves are essential coastal ecosystems. Their tangled roots protect shorelines from erosion during storms. They also provide a nursery for young fish and crabs." What is the topic sentence?

7. Answer both (separate your two answers with a comma). 1) Read this paragraph: "Ancient Egyptians built massive pyramids using simple tools. They believed pharaohs needed grand tombs for the afterlife. Some pyramids took decades to complete." What is the topic sentence? 2) Read this paragraph: "Wetlands act as natural water filters. Plants and soil in a wetland trap pollutants before they reach rivers and lakes. This keeps drinking water supplies cleaner." What is the topic sentence?

8. Answer both (separate your two answers with a comma). 1) Read this paragraph: "Volunteering benefits both individuals and communities. Volunteers often report feeling happier and more connected to others. Communities gain extra support for events and services they could not otherwise afford." What is the topic sentence? 2) Read this paragraph: "The Great Barrier Reef supports extraordinary biodiversity. Thousands of species of fish and coral call it home. Scientists continue to discover new species there." What is the topic sentence?

9. Answer both (separate your two answers with a comma). 1) Read this paragraph: "Recycling electronics prevents serious environmental harm. Old devices often contain toxic metals that can leak into soil and water if dumped. Proper recycling recovers valuable materials for reuse instead." What is the topic sentence? 2) Read this paragraph: "Volcanic eruptions reshape landscapes dramatically. Lava flows can create new land. Ash can also enrich soil for future farming." What is the topic sentence?

10

Answer both (separate your two answers with a comma). 1) Read this paragraph: "Space exploration has advanced dramatically over the decades. Astronauts have walked on the moon. Robotic probes now explore distant planets." What is the topic sentence? 2) Read this paragraph: "Antarctica is one of the most extreme environments on Earth. Temperatures can drop below negative 80 degrees Celsius. Despite this, unique wildlife has adapted to survive there." What is the topic sentence?

_____
