✨ Grade 8 Maths — Quadrilaterals ✨

Name: Demo **Date:** 26/11/2026

1. A quadrilateral has three angles of 94°, 116°, and 100°. Find the fourth angle:

2. A quadrilateral has three angles of 70°, 76°, and 75°. Find the fourth angle:

3. A quadrilateral has three angles of 87°, 92°, and 74°. Find the fourth angle:

4. A quadrilateral has three angles of 77°, 66°, and 99°. Find the fourth angle:

5. A quadrilateral has three angles of 62°, 92°, and 60°. Find the fourth angle:

6. A quadrilateral has three angles of 98°, 119°, and 92°. Find the fourth angle:

7. A quadrilateral has three angles of 85°, 73°, and 78°. Find the fourth angle:

8. A quadrilateral has three angles of 114°, 81°, and 95°. Find the fourth angle:

9. A quadrilateral has three angles of 98°, 66°, and 93°. Find the fourth angle:

10. A quadrilateral has three angles of 111°, 90°, and 69°. Find the fourth angle:
