✨ Grade 6 English — Compare Texts ✨

Name: Demo Grade 6 **Date:** 26/11/2026

1

Answer both (separate your two answers with a comma). 1) Read: "Both poems describe autumn, but one uses imagery of decay and endings, while the other uses imagery of harvest and abundance." Which statement is true? — "Both describe autumn but use contrasting imagery" or "The two poems are about completely different seasons"? 2) Read: "Both critics reviewed the same film, but one praised its cinematography, while the other criticised its pacing." Which statement is true? — "Both reviewed the same film but focused on different elements" or "The two critics reviewed completely different films"?

2

Answer both (separate your two answers with a comma). 1) Read: "Both novels explore themes of survival, but one focuses on physical wilderness survival, while the other explores emotional survival after loss." Which statement is true? — "Both explore survival, but through different kinds of struggle" or "Both novels have exactly the same plot"? 2) Read: "Both critics reviewed the same film, but one praised its cinematography, while the other criticised its pacing." Which statement is true? — "Both reviewed the same film but focused on different elements" or "The two critics reviewed completely different films"?

3

Answer both (separate your two answers with a comma). 1) Read: "Both biographies cover the same inventor's life, but one focuses on his failures, while the other focuses on his eventual breakthroughs." Which statement is true? — "Both cover the same life but emphasise different periods of it" or "The two biographies are about completely different inventors"? 2) Read: "Both articles discuss artificial intelligence, but one focuses on its benefits for medicine, while the other raises concerns about job losses." Which statement is true? — "Both discuss AI but focus on different impacts" or "Both articles argue AI should be banned entirely"?

4

Answer both (separate your two answers with a comma). 1) Read: "Both poems describe autumn, but one uses imagery of decay and endings, while the other uses imagery of harvest and abundance." Which statement is true? — "Both describe autumn but use contrasting imagery" or "The two poems are about completely different seasons"? 2) Read: "Both documentaries cover ocean pollution, but one focuses on plastic waste, while the other examines chemical runoff from farms." Which statement is true? — "Both cover pollution but focus on different pollution sources" or "The two documentaries reach completely opposite conclusions"?

5

Answer both (separate your two answers with a comma). 1) Read: "Both biographies cover the same inventor's life, but one focuses on his failures, while the other focuses on his eventual breakthroughs." Which statement is true? — "Both cover the same life but emphasise different periods of it" or "The two biographies are about completely different inventors"? 2) Read: "Both essays discuss space exploration, but one argues it is essential for scientific progress, while the other argues the money should fund problems on Earth." Which statement is true? — "Both discuss space exploration but reach different conclusions" or "Both essays argue space exploration should be banned"?

6

Answer both (separate your two answers with a comma). 1) Read: "Both surveys measured student satisfaction, but one focused on academic support, while the other focused on extracurricular activities." Which statement is true? — "Both measured satisfaction but focused on different areas" or "The two surveys reached identical, specific conclusions"? 2) Read: "Both articles discuss artificial intelligence, but one focuses on its benefits for medicine, while the other raises concerns about job losses." Which statement is true? — "Both discuss AI but focus on different impacts" or "Both articles argue AI should be banned entirely"?

7

Answer both (separate your two answers with a comma). 1) Read: "Both speeches address unemployment, but one blames automation, while the other blames a lack of worker training programs." Which statement is true? — "Both address unemployment but blame different causes" or "Both speeches claim unemployment is not a real problem"? 2) Read: "Both films are set during the same war, but one follows a soldier's journey, while the other follows a family waiting at home." Which statement is true? — "Both are set in the same war but follow different perspectives" or "The two films are set in completely different time periods"?

8

Answer both (separate your two answers with a comma). 1) Read: "Both articles discuss the benefits of remote work, but one highlights increased flexibility, while the other stresses reduced commuting costs." Which statement is true? — "Both highlight benefits, but emphasise different specific advantages" or "One article argues against remote work entirely"? 2) Read: "The two architects designed buildings for the same site, but one prioritised environmental sustainability, while the other prioritised cost efficiency." Which statement is true? — "Both designed for the same site but prioritised different goals" or "They designed buildings for completely different locations"?

9

Answer both (separate your two answers with a comma). 1) Read: "The two biologists study the same species of frog, but one focuses on its mating behaviour, while the other studies its diet." Which statement is true? — "Both study the same species but focus on different behaviours" or "The two biologists study completely different animals"? 2) Read: "Both essays discuss space exploration, but one argues it is essential for scientific progress, while the other argues the money should fund problems on Earth." Which statement is true? — "Both discuss space exploration but reach different conclusions" or "Both essays argue space exploration should be banned"?

10

Answer both (separate your two answers with a comma). 1) Read: "The two biologists study the same species of frog, but one focuses on its mating behaviour, while the other studies its diet." Which statement is true? — "Both study the same species but focus on different behaviours" or "The two biologists study completely different animals"? 2) Read: "Both scientists study climate change, but one focuses on rising sea levels, while the other researches changing rainfall patterns." Which statement is true? — "Both study climate change but focus on different effects" or "The two scientists disagree that climate change is occurring"?
