✨ Grade 8 Maths — Variation & Trends ✨

Name: Demo **Date:** 26/11/2026

1. A shop's weekly sales over 5 weeks were: 88, 79, 68, 59, 51.
Describe the overall trend (increasing / decreasing / fluctuating):

2. A shop's weekly sales over 5 weeks were: 114, 128, 106, 106, 129.
Describe the overall trend (increasing / decreasing / fluctuating):

3. A shop's weekly sales over 5 weeks were: 138, 145, 153, 161, 164.
Describe the overall trend (increasing / decreasing / fluctuating):

4. A shop's weekly sales over 5 weeks were: 107, 102, 92, 80, 72.
Describe the overall trend (increasing / decreasing / fluctuating):

5. A shop's weekly sales over 5 weeks were: 100, 110, 119, 122, 128.
Describe the overall trend (increasing / decreasing / fluctuating):

6. A shop's weekly sales over 5 weeks were: 119, 111, 106, 95, 89.
Describe the overall trend (increasing / decreasing / fluctuating):

7. A shop's weekly sales over 5 weeks were: 109, 120, 114, 129, 127.
Describe the overall trend (increasing / decreasing / fluctuating):

8. A shop's weekly sales over 5 weeks were: 91, 79, 80, 89, 79.
Describe the overall trend (increasing / decreasing / fluctuating):

9. A shop's weekly sales over 5 weeks were: 150, 140, 134, 126, 121.
Describe the overall trend (increasing / decreasing / fluctuating):

10. A shop's weekly sales over 5 weeks were: 127, 137, 146, 154, 162.
Describe the overall trend (increasing / decreasing / fluctuating):
