✨ Grade 6 English — Evidence & Reasoning ✨

Name: Demo Grade 6 **Date:** 26/11/2026

1. Answer both (separate your two answers with a comma). 1) Read: "Urban green spaces improve wellbeing. Studies show people living near parks report 20% higher life satisfaction scores." What is the evidence? 2) Read: "Coral reefs support marine life. Scientists have documented a single healthy reef can be home to over 4,000 species of fish." What is the evidence?

2. Answer both (separate your two answers with a comma). 1) Read: "Noise-cancelling study spaces improve test scores. A trial found students using quiet study rooms scored 12% higher on practice tests." What is the evidence? 2) Read: "Streetlights reduce nighttime accidents. City data showed installing new streetlights reduced nighttime traffic accidents by 35% in one district." What is the evidence?

3. Answer both (separate your two answers with a comma). 1) Read: "Shade trees lower home cooling costs. A study found homes shaded by mature trees used 15% less electricity on air conditioning." What is the evidence? 2) Read: "Ocean plastic pollution harms wildlife. Researchers estimate over a million seabirds die each year from ingesting or becoming tangled in plastic." What is the evidence?

4

Answer both (separate your two answers with a comma). 1) Read: "Urban beehives support pollination in cities. Researchers found community gardens near hives produced 40% more fruit per plant." What is the evidence? 2) Read: "Carpooling reduces fuel costs. A survey found families who carpooled to school saved an average of $400 a year on petrol." What is the evidence?

5

Answer both (separate your two answers with a comma). 1) Read: "Breakfast improves concentration at school. A study found students who ate breakfast scored higher on morning concentration tests than those who skipped it." What is the evidence? 2) Read: "Mangroves protect coastlines. Researchers found areas with mangrove forests suffered 50% less storm damage than unprotected coastlines." What is the evidence?

6

Answer both (separate your two answers with a comma). 1) Read: "Sleep is essential for learning. A study found that students who slept 8 hours scored 25% higher on memory tests than those who slept 5 hours." What is the evidence? 2) Read: "School breakfast programs reduce absenteeism. A report found schools with breakfast programs saw student absences drop by 18%." What is the evidence?

7. Answer both (separate your two answers with a comma). 1) Read: "Beekeeping supports local biodiversity. Researchers found areas with urban beehives had 30% more flowering plant species nearby." What is the evidence? 2) Read: "Exercise improves mental health. Research shows that people who exercise three times a week report 40% fewer symptoms of anxiety." What is the evidence?

8. Answer both (separate your two answers with a comma). 1) Read: "Community gardens strengthen neighbourhood ties. A survey found residents near community gardens reported knowing twice as many of their neighbours." What is the evidence? 2) Read: "Regular reading improves vocabulary. Research shows children who read 20 minutes daily are exposed to 1.8 million words per year." What is the evidence?

9. Answer both (separate your two answers with a comma). 1) Read: "Forests help regulate climate. Data shows a single mature tree can absorb up to 22 kilograms of carbon dioxide per year." What is the evidence? 2) Read: "Early literacy predicts future success. Research found children who read fluently by age 8 were far more likely to graduate high school." What is the evidence?

10

Answer both (separate your two answers with a comma). 1) Read: "Vaccination programs save lives. Health authorities report widespread vaccination has reduced deaths from measles by over 70% worldwide." What is the evidence? 2) Read: "Reading aloud to children boosts vocabulary growth. A study found children read to daily knew around 1,000 more words by age five." What is the evidence?
