✨ Grade 9 Maths — Histograms ✨

Name: Demo **Date:** 26/11/2026

1. A histogram shows frequencies: 0-9=4, 10-19=9, 20-29=15, 30-39=14, 40-49=14. What is the total number of data values?

2. A histogram shows frequencies: 0-9=12, 10-19=4, 20-29=11, 30-39=14, 40-49=6. Which interval has the highest frequency?

3. A histogram shows frequencies: 0-9=12, 10-19=3, 20-29=4, 30-39=8, 40-49=2. What is the total number of data values?

4. A histogram shows frequencies: 0-9=3, 10-19=9, 20-29=12, 30-39=8, 40-49=6. Which interval has the highest frequency?

5. A histogram shows frequencies: 0-9=3, 10-19=10, 20-29=4, 30-39=13, 40-49=11. What is the total number of data values?

6. A histogram shows frequencies: 0-9=9, 10-19=15, 20-29=10, 30-39=7, 40-49=14. What is the total number of data values?

7. A histogram shows frequencies: 0-9=15, 10-19=3, 20-29=6, 30-39=3, 40-49=9. What is the total number of data values?

8. A histogram shows frequencies: 0-9=15, 10-19=4, 20-29=11, 30-39=5, 40-49=10. What is the total number of data values?

9. A histogram shows frequencies: 0-9=6, 10-19=11, 20-29=12, 30-39=10, 40-49=10. Which interval has the highest frequency?

10. A histogram shows frequencies: 0-9=13, 10-19=4, 20-29=10, 30-39=13, 40-49=8. What is the total number of data values?
