✨ Grade 7 English — Perspective ✨

Name: Demo Grade 7 **Date:** 26/11/2026

1. Answer both (separate your two answers with a comma). 1) Does hearing only the winning side's account of a court case give the full picture? 2) Can a parent and a teenager see the same curfew rule from very different perspectives?

2. Answer both (separate your two answers with a comma). 1) Can someone's age or background shape how they view the same event? 2) Does reading a war story only from the victors' side give the full picture?

3. Answer both (separate your two answers with a comma). 1) Can an employee and a manager see the same workplace rule from different perspectives? 2) Can an immigrant and someone born in a country experience the same national holiday differently?

4. If a documentary only features scientists who agree with each other, is it showing balanced perspectives?

5. Can an employee and a manager see the same workplace rule from different perspectives?

6. Answer both (separate your two answers with a comma). 1) Can a grandparent and a grandchild remember the same family event very differently? 2) Can a patient and a doctor view the same medical decision from different perspectives?

7. Answer both (separate your two answers with a comma). 1) Can a soldier and a civilian experience the same war from very different perspectives? 2) Does reading a story from the villain's point of view sometimes change how we judge them?

8. Answer both (separate your two answers with a comma). 1) Does reading a story from the villain's point of view sometimes change how we judge them? 2) If a budget report only quotes the treasurer, does it include the opposition's perspective?

9. Answer both (separate your two answers with a comma). 1) Is it useful to read opinion pieces from more than one newspaper on a controversial issue? 2) If a wildlife documentary only interviews hunters about a species, does it capture the conservationists' perspective?

10. Answer both (separate your two answers with a comma). 1) Can two witnesses to the same accident remember different details based on their perspective? 2) Can a patient and a doctor view the same medical decision from different perspectives?
